

PROJECT OBJECTIVES

Team ID	PNT2022TMID27942
Project Name	Project- Natural Disasters Intensity Analysis and Classification using Artificial Intelligence

1. Enhance disaster preparedness for effective response.
2. Increase resilience and prevent the emergence of new disaster risks and reducing the existing risks
3. Promote the culture of disaster risk prevention and mitigation at all levels.
4. Capacity development at all levels to effectively respond to multiple hazards and for community-based disaster management.
5. Strengthen disaster risk governance.
6. To save lives of living organisms, maintain ecological balance and to reduce losses due to damage.
7. Create a user-friendly website to classify and analyse natural disasters.
8. Build a model for risk analysis with high accuracy.
9. Get at least 4/5 stars on performance reviews.
10. Make effective changes or updates in Sprint4 release.
